

## Learning Experiences: *Turing Machines and Internships*

**Michael Lemke**, a senior Philosophy major (Math minor) at NMU, has been studying Turing Machines and believes they can be an excellent teaching tool for Introductory Computer Programming students.

Michael will also be giving this talk at an upcoming conference in March at the Michigan Academy of Science, Arts, & Letters.

**Steven Hogle** is a senior Computer Science major who recently completed an internship at Mead Paper. He will be talking about his semester in the *'real world'*.
